A scenic photograph of a rocky coastline. In the foreground, the ocean is filled with white, frothy waves crashing against a line of dark, jagged rocks. The water is a mix of white foam and greenish-blue. The sky above is a pale blue with soft, white clouds. The overall mood is serene and coastal.

A person is lying on their back in shallow ocean water. They are wearing a dark blue, long-sleeved swimsuit that has several large, irregular holes and tears, particularly around the waist and knee areas. Their right arm is bent, and their hand is resting on their right thigh. The water is a light, sandy yellow color, and white foam from breaking waves is visible in the background and around the person's head. The overall scene suggests a fashion or lifestyle photograph.

I am a 37 year old a mother of one, I enjoy singing, writing, and most of all photography. I had my first encounter with photography 20 years ago when I started working in a studio. I can honestly say that I have never had a job that I loved more.

Regrettably, I had to move on to other employment with better financial gain for my family. Although I enjoyed my new career, nothing grabbed my heart strings like photography.

It wasn't until cancer reared it's ugly head in my family, that I finally had to take a step back and re-evaluate my life. I wanted to follow my dream and create, the more I watched as my sister in life fought for her life, the more I wanted out of my own. I wanted to take as many pictures as possible and cherish every moment. She was literally getting weaker by the day, and although my heart was breaking, I knew that photography was the only thing that would save me.

Well needless to say, I went out bought a new camera and put myself back out doing freelance photography. I quickly started adding weddings and sharing my work on social media, I was getting inquires every week. I spent hours upon hours learning and inquiring about how to run a business. The more events and sessions I booked, the more I wanted, a fire started again in my heart.

My sister passed away a little over a year later, but I knew I couldn't let that stop me. She was in love with my images and pushed me to keep going. So, I kept pushing on, she had always believed I would get back to what I loved and be successful at it. She was right and that's the short version of how "Brandy Gregg Photography Of Wings Of Love" came about.
